## REPORT OF THE PROGRAM

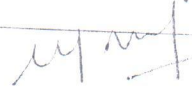

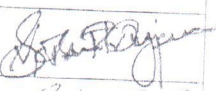

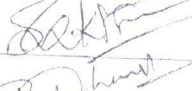

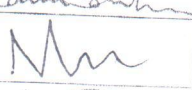

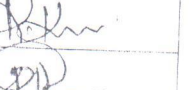

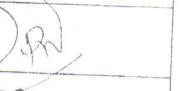

1	<b>Program Name</b>	Seminar on Application Of Traction Control.
2	<b>Date of program</b>	12.06.2019
3	<b>Resource person:</b>	Dr. Vimala Ebanesar, Prof/Civil, VVCOE
4	<b>Participants</b>	18
5	<b>Objective of program</b>	The objective of Traction control is an electronic means of reducing the wheel spin caused by the application of excessive power for the valuable grip. Wheel spin can result in loss control of the car, reduce acceleration and cause tire wear.
6	<b>Program description</b>	The program started with welcome address and introduction to the resource person by Mr. AL. Karthikeyan, Assistant Professor and HOD of MECHANICAL Department. 18 faculty members attended the seminar. The resource person explained in detail about A traction control system (TCS), also known as ASR a secondary function of the electronic stability control (ESC) on production motor vehicles, designed to prevent loss of traction of the driven road wheels. TCS is activated when throttle input and engine power and torque transfer are mismatched to the road surface conditions. The session concluded with an interactive session between the instructor and the Staff in which the queries of the staff were addressed satisfactorily. The session ended with vote of thanks by, Mr. R.Saravana Kumar AP/MECHANICAL.
7	<b>Outcome of this program</b>	The staff got knowledge on Application Of Traction Control.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on ADVANCES IN REFRIGERATION AND AIR CONDITIONING.
2	Date of program	12.08.2019
3	Resource person:	Mr. T. Subash
4	Participants	36
5	Objective of program	The objective of refrigeration, the process of removing heat from an enclosed space or from a substance for the purpose of lowering the temperature.
6	Program description	<p>The program started with a welcome address and introduction to the resource person by Mr.AL.Karthikeyan ,Assistant Professor and HoD of MECHANICAL Department. 36 faculty members attended the seminar. The resource person explained in detail about Refrigeration and air conditioning are generally treated in a single subject due to the fact that one of the most important applications of refrigeration is in cooling and dehumidification as required for summer air conditioning. As mentioned before, air-conditioning is one of the major applications of refrigeration.</p> <p>The session concluded with an interactive session between the instructor and the Staff in which the queries of the staff were addressed satisfactorily. The session ended with vote of thanks by Mr. P. Prabakaran AP/MECHANICAL.</p>
7	Outcome of this program	The staff got knowledge on advances in refrigeration and air conditioning and its applications.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on DESIGNING A SMART HOME USING ARDUINO AND WI-FI MODULE
2	Date of program	23.09.2019
3	Resource person:	Mr. Ramar Kalangiam,
4	Participants	15
5	Objective of program	The main objective of the Seminar is to get an exposure on "Designing a Smart Home using Arduino and Wi-Fi module" to strengthen the student community through our faculty.
6	Program description	The program started with a welcome address and introduction to the resource person by Mrs. Saravana Selvi, AP of ECE Department. 15 faculty members from various branches attended this Seminar. The resource person explained in detail about How to use and control home appliances by using Arduino and Wi-Fi modules? And it was very helpful and quite interesting for our staff members to update themselves in using recent technologies. It was literally an eye opening session to many of us. The session ended up with an interactive session between the instructor and the faculty members. The session was very clear, understandable and informative. Towards the end of the program feedback from all the participants were collected. It was a resounding success with the vote of thanks proposed by the program coordinator, Mr. V. Arunachalam, AP/ECE.
7	Outcome of this program	The staff members comprehended and will certainly implement the technologies in "Designing a Smart Home using Arduino and Wi-Fi module"

## REPORT OF THE PROGRAM

1	Program Name	Seminar on ICT tools for effective learning and teaching
2	Date of program	17.09.2019
3	Resource person:	Mr. S. Ganesh Kumar
4	Participants	22
5	Objective of program	The main objective of the seminar is to understand the role of ICT tools in the teaching and learning process.
6	Program description	<p>The program started with a welcome address and introduction to the resource person was given by Dr. A. Anna Lakshmi HoD/CSE. <sup>2-2</sup> faculty members of all departments attended the seminar. The resource person gives the outline about Information and Communication Technologies (ICTs) to support the creation of a dynamic and interactive teaching and learning environment. The world has witnessed phenomenal growth in communication technology, computer network and information technology. Education around the world is experiencing major paradigm shifts in educational practices under the umbrella of ICT enabled learning environments.</p> <p>The growth of ICTs, the acknowledgement of their ease of use, the power and diversity of information transfer allow teachers and students to have access to a world beyond the classroom and create their own learner-centered environment for maximum learning outcome. Mastering ICT skills and their application to improve teaching and learning provide teachers the tools to perform their role as creators of pedagogical environments. Learners, on the other hand, take part in the sharing of needed learning space to acquire collaborative learning principles, learning independence and to enhance critical thinking, creative thinking and problem solving skills. Worldwide research has shown that ICT can lead to an improved student learning and better teaching methods.</p> <p>The session concluded with an interactive session between the speaker and the participants in which the queries were addressed effectively. The session was very clear, understandable and informative. The session was concluded with vote of thanks by the program coordinator, Mr. R. Jeeva, AP/CSE.</p>
8	Outcome of this program	The faculty can understand and apply data mining algorithms in practical applications.

## REPORT

Name of the Event: **Training program on “Cleanliness and safety in college campus”**

Date of the Event: **04-10-2019**

Venue of the Event: **CSE Seminar Hall**

On 04-10-2019 our college has organized a **Training program on “Cleanliness and safety in college campus”**.50 members participated in the program and our Chairman Mr. Paulraj along with our Principal, Dr. K. Asan Mohideen were led that event. The following points were discussed:

- Maintaining a clean college environment sets a **good example** to students.
- About the benefit, **cleanliness is incredibly important** when it comes to **cutting down on the spread of diseases in the college** and means that staff and students are able to enjoy a comfortable learning environment.
- And also about the benefit of **protecting college infrastructure**. Electronic equipment, furnishings and other resources are an important part of college infrastructure. Over time, dust, dirt and rubbish can prevent these things from running efficiently.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on DATABASE BACKUP, RECOVERY AND TUNING
2	Date of program	15.10.2019
3	Resource person:	Mr. M. Ramnath
4	Participants	20
5	Objective of program	The main objective of the seminar is to understand the applications and tools for Database Backup, Recovery and Tuning.
6	Program description	<p>The program started with a welcome address and introduction to the resource person was given by Dr. A. Anna Lakshmi, HoD/CSE. 20 faculty members of all departments attended the seminar. The resource person explained the topics in three parts. He starts the session with the reasons for failure in a database. The error raised due to user events, Hardware faults or catastrophic events. In Database Backup, he explained how duplicates of the database information and data are created and stored in a backup server just to be on the safe side. The generation of transaction logs which are stored in the backup along with the database data has been discussed. He demonstrated the types of backup: full backup, transaction log and differential backup. Using a comparative study, he pinpoints the differences and similarities with the known parameters like performance, durability etc.</p> <p>In Recovery, types and its working has been discussed. Log based recovery and shadow paging has been explained with demo videos that makes the participants easily understand the concepts. In Tuning, he demonstrated how RMAN works that reads and writes input data, processes data by validating blocks and copy to buffers. He also explains what are the factors affecting backup speed.</p> <p>The session concluded with an interactive session between the speaker and the participants in which the queries were addressed effectively. The session was very clear, understandable and informative. The session was concluded with vote of thanks by the program coordinator, Mr. R. Raja Sekar, AP/CSE.</p>
7	Outcome of this program	The faculty can understand and apply the backup and recovery tools on the database.

REPORT OF THE PROGRAM

1	Program Name	Seminar on Research Initiatives and Research Article Preparation
2	Date of program	09.12.2019
3	Resource person:	Dr. A. Anna Lakshmi
4	Participants	30
5	Objective of program	The main objective of the seminar is to make the faculty write a research article in an effective and efficient way..
6	Program description	<p>The program started with a welcome address and introduction to the resource person was given by Mr. D. G. David, AP/CSE. 58 faculty members of all departments attended the seminar. The resource person explained how to improve the accuracy and completeness of reporting of studies of diagnostic accuracy, to allow readers to assess the potential for bias in the study (internal validity) and to evaluate its generalizability. She pinpoints the guidelines to produce scientific and technical reports and writing/distributing gray literature. She explained the need of performance analysis in papers that should describe the basic data needed to enable the unambiguous interpretation of the results and to possibly replicate the experiment. She explained the metadata; they describe the type of data collected, not the data itself. An example of metadata is the question presented on a form, "Patient Name," whereas an example of data would be "Jane Smith."</p> <p>The seminar focused on the common opportunities in the scientific publishing arena to enhance rigor and further support research that is reproducible, robust, and transparent. It makes the participants responsible for reporting of studies developing, validating, or updating a prediction model, whether for diagnostic or prognostic purposes.</p> <p>The session concluded with an interactive session between the speaker and the participants in which the queries were addressed effectively. The session was very clear, understandable and informative. The session was concluded with a vote of thanks by the program coordinator, Mrs. G. Twinkle Geojini, AP/CSE.</p>
7	Outcome of this program	The faculty can understand and apply the techniques to prepare a research article.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on ENERGY SAVING TIPS
2	Date of program	10.12.2019
3	Resource person:	Mr. A. NiyasAhamed
4	Participants	21
5	Objective of program	The main objective of the Seminar is to give energy saving tips to all staff members
6	Program description	The program started with a welcome address and introduction to the resource person by Mrs. A. Kanagalakshmi, HoD of ECE Department. 21 faculty members of ECE branch attended this Seminar. The resource person explained in detail about how to save energy. Energy calculation chart was given to all staff members and asked them to calculate monthly consumption. Resource person conveyed the importance of energy conservation. The session concluded with an interactive session between the instructor and the staff members in which the queries of the staff were addressed satisfactorily. The session was very clear, understandable and informative. The session ended with a vote of thanks by the program coordinator, Mrs. R. S. Bini, AP/ECE.
7	Outcome of this program	The staff members gained knowledge regarding energy conservation

REPORT OF THE PROGRAM

1	Program Name	Seminar on Data Science and Big data Analytics
2	Date of program	03.02.2020
3	Resource person:	Mr. D. G. David
4	Participants	19
5	Objective of program	The main objective of the seminar is to understand the concepts of data science and big data with analytical tools.
6	Program description	<p>The program started with a welcome address and introduction to the resource person was given by Dr. A. Anna Lakshmi, HoD/CSE, 19 faculty members of all departments attended the seminar. The resource person uncovered the insights and trends in data that has been around since ancient times. He explained about the trending tools for data science like Jupyter Notebooks, JupyterLab, RStudio IDE, Git, GitHub, and Watson Studio, what it is used for, what programming languages they can execute, their features and limitations. Since then, people working in data science have carved out a unique and distinct field for the work they do. He also explained how to collect and analyze data, to build a model, and understand the feedback after model deployment.</p> <p>He put forth the importance of a Data Scientist who deals with convincing company executives of the right decisions to make. These executives may not be well versed in data science, so the data scientist must be able to present and visualize the data stored in a way they will understand. That's where Tableau comes in – and it helps them to become an expert storyteller using the leading visualization software in business intelligence and data science.</p> <p>The session concluded with an interactive session between the speaker and the participants in which the queries were addressed effectively. The session was very clear, understandable and informative. The session was concluded with vote of thanks by the program coordinator, Mr. M. Ramnath, AP/CSE.</p>
7	Outcome of this program	The faculty can understand and apply data science and big data with analytical tools.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on Introduction to Neural network and Fuzzy logic
2	Date of program	06.02.2020
3	Resource person:	Mr. S. Sundararaj
4	Participants	22
5	Objective of program	The main objective of the Seminar is to give knowledge about Neural network and Fuzzy logic to faculty members
6	Program description	The program started with welcome address and introduction to the resource person by Mrs. A. Kanagalakshmi, HoD of ECE Department. 22 faculty members from various branches attended this Seminar. The resource person explained in detail about the basics of Neural network and Fuzzy logic. Explained how we are using the Neural network and Fuzzy logic in Artificial Intelligence. Briefed the concept through simple MATLAB simulation. The session concluded with an interactive session between the instructor and the faculty members in which the queries of the were addressed satisfactorily. The session was very clear, understandable and informative. The session ended with vote of thanks by the program coordinator, Mr. R. Ramar kalangiyam, AP/ECE.
8	Outcome of this program	The staff members gained knowledge regarding how to use the neural network and Fuzzy logic to computational problems.

## REPORT OF THE PROGRAM

1	<b>Program Name</b>	Seminar on Solar Energy.
2	<b>Date of program</b>	08.02.2020
3	<b>Resource person:</b>	Mr. R. Saravana Kumar, AP/MECH
4	<b>Participants</b>	32
5	<b>Objective of program</b>	The objective of This programme most common way of harnessing energy from the sun is through photovoltaic (PV) panels – those large, mirror-like panels you've likely seen on rooftops, handheld solar devices, and even space crafts. These panels operate as conductors, taking in the sun's rays, heating up, and creating energy (and electricity).
6	<b>Program description</b>	<p>The program started with welcome address and introduction to the resource person by Mr.AL. Karthikeyan, Assistant Professor and HoD of MECHANICAL Department. 32 faculty members attended the seminar. The resource person explained in detail about Energy can be harnessed directly from the sun, even in cloudy weather. Solar energy is used worldwide and is increasingly popular for generating electricity or heating and desalinating water. Solar power is generated in two main ways:<b>Photovoltaics (PV)</b>, also called solar cells, are electronic devices that convert sunlight directly into electricity. The modern solar cell is likely an image most people would recognise – they are in the panels installed on houses and in calculators. They were invented in 1954 at Bell Telephone Laboratories in the United States. Today, PV is one of the fastest-growing renewable energy technologies, and is ready to play a major role in the future global electricity generation mix.</p> <p>The session concluded with an interactive session between the instructor and the Staff in which the queries of the staff were addressed satisfactorily. The session ended with vote of thanks by, Mr. P. Prabakaran AP/MECHANICAL</p>
7	<b>Outcome of this program</b>	The staff got knowledge on Solar Energy and its applications.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on Analysis Of Combined Bending And Testing.
2	Date of program	11.03.2020
3	Resource person:	Mr. S. Sundarrajan
4	Participants	16
5	Objective of program	The objective of The bend test is a simple and inexpensive qualitative test that can be used to evaluate both the ductility and soundness of a material. It is often used as a quality control test for butt-welded joints, having the advantage of simplicity of both test piece and equipment.
6	Program description	<p>The program started with a welcome address and introduction to the resource person by Mr. AL. Karthikeyan, Assistant Professor and HOD of MECHANICAL Department. 16 faculty members attended the seminar. The resource person explained in detail about The bend test is a simple and inexpensive qualitative test that can be used to evaluate both the ductility and soundness of a material. It is often used as a quality control test for butt-welded joints, having the advantage of simplicity of both test piece and equipment.</p> <p>The session concluded with an interactive session between the instructor and the Staff in which the queries of the staff were addressed satisfactorily. The session ended with vote of thanks by Mr. P. Prabakaran AP/MECHANICAL.</p>
7	Outcome of this program	The staff got knowledge on Analysis Of Combined Bending And Testing and its applications.

## REPORT OF THE PROGRAM

1	Program Name	Seminar on Social Media's Impact on Education System
2	Date of program	19.03.2020
3	Resource person:	Mrs. G. Twinkle Geojini
4	Participants	30
5	Objective of program	The main objective of the seminar is to understand the concepts of social networks and be able to use the tools for analyzing them.
6	Program description	<p>The program started with a welcome address and introduction to the resource person was given by Dr. A. Anna Lakshmi, HoD/CSE. 30 faculty members of all departments attended the seminar. The resource person explained the basic concepts that we have to understand to do and read about social networks. She explained about everything we need to set up our own network study or to understand the setup of another social network study. It's about common strategies to collect relational data. She showed a demo on how to analyze network data and what software packages exist that may help us with social network data collection or data analysis. She pinpoints the influential texts in the field of social network research. The seminar also concentrates on how we can use the techniques of social network analysis (SNA) to reflect about our own life and career.</p> <p>The seminar helped the students to learn how relationships between people, artifacts, and ideas within learning settings can be analyzed and interpreted through SNA. It also makes them learn how to prepare data and map these relationships to help you understand how people communicate and exchange information. The seminar was given foundational concepts and applications of social network analysis in learning analytics. The speaker demonstrated how to use igraph and statnet R packages to manipulate, analyze, and visualize network data.</p> <p>The session concluded with an interactive session between the speaker and the participants in which the queries were addressed effectively. The session was very clear, understandable and informative. The session was concluded with a vote of thanks by the program coordinator, Mr. D. G. David, AP/CSE.</p>
7	Outcome of this program	The faculty can understand foundational concepts of social networks and analyze it through software packages.

## REPORT OF THE PROGRAM

1	<b>Program Name</b>	Seminar on Advancements in Bio Medical signal processing
2	<b>Date of program</b>	23.03.2020
3	<b>Resource person:</b>	Mrs. R. S. Bini
4	<b>Participants</b>	20
5	<b>Objective of program</b>	The main objective of the Seminar is to give knowledge about the advanced technologies used in bio medical field.
6	<b>Program description</b>	The program started with welcome address and introduction to the resource person by Mrs. A. Kanagalakshmi, HoD of ECE Department. 20 faculty members from various branches attended this Seminar. The resource person explained in detail about the new technologies deployed in the field of Bio medical. Madam addressed how effectively they are playing vital role in saving human lives and how it brings more possible from several impossible things in the older days. The session concluded with an interactive session between the instructor and the faculty members in which the queries were addressed satisfactorily. The session was very clear, understandable and informative. The session ended with vote of thanks by the program coordinator, Mr. R. Ramar kalangiyam, AP/ECE.
8	<b>Outcome of this program</b>	The staff members gained knowledge about the emerging Bio medical field.
