

THAMIRABHARANI ENGINEERING COLLEGE

Chathirampudukulam, Chidambaranagar-Vepemkulam Road

Thatchanallur, Tirunelveli – 627 358.

Assistive Technology and Facilities for persons with disabilities accessible websites, screen reading software, mechanic equipment

Thamirabharani Engineering College utilizes assistive technology which enables the students with disabilities to complete their task with confidence without compromising on time or any other impairments. Every year Windows OS which by default comprises of tools related to assistive technology is purchased by the institution. This would enable the students with disabilities to have a more positive and easy going life style with an increase in social participations, security, control and greater chance to reduce institutional costs.

1. Vision tools: The following tools are implemented for students with visual disabilities.

(i) High Contrast tool: While implementing this option clear vision is obtained without much strain while working for long duration in front of a screen, new dark themes and contrast themes can be used to reduce screen brightness and increase contrast without reducing the aesthetic effect.

(ii) Display tool: This option helps to adjust text size, customize the colour and the size of the mouse cursor

(iii) Magnifier tool: Similar to a digital magnifying glass, a magnifier can be used to enlarge words and images on part of the screen or full screen.

2. Hearing tool: This tool is implemented for students with hearing disabilities. From capturing to audio options, to overcome difficulty in hearing, Windows has settings and features that can help. While having difficulty in hearing or learning a new language, watching a video in a noisy environment, captions can be used to read the spoken words in the videos one watches. And the redesigned caption themes in Windows make it easier to customize the experience, including text size, font, color, and background.

3. Narrator tool: This tool is implemented for students with visual disabilities. This option Narrator provides simplified navigation and audio descriptions so that the visually impaired can easily interact with everything on the screen using the keyboard or preferred Braille device.
